

KEIM MINERAL PAINTS CASE STUDY SWAFFHAM BULBECK

KEIM SOLDALIT® ON LIMEWASH

Before

After

PRIVATE RESIDENCE IN SWAFFHAM BULBECK

This detached domestic property in the village of Swaffham Bulbeck in Cambridgeshire was originally limewashed smooth render. With much of the limewash deteriorating and flaking off, the owners sought for a breathable finish which was long lasting and hardwearing.

Their decorator, Guiseppe Piran, recommended KEIM to the owners who had already researched KEIM online.

David Smith, Senior Sales Executive of KEIM visited the property and specified an initial coat of KEIM Soldalit® Fixativ to consolidate the dusty and chalky facades. KEIM Soldalit® 9112 was applied as the owners were looking for a lighter colour than the existing limewash.

Not only are KEIM paints long lasting compared to limewash, they are natural, light fast, UV stable and environmentally friendly. See other advantages of using KEIM over limewash [here](#).

WHAT IS KEIM SOLDALIT®?

[KEIM Soldalit®](#) is a modern paint system for use on mineral and previously painted substrates.

Key features & benefits:

- Breathable
- Economical and easy to apply
- Extreme long life/durable
- Environmentally friendly ISO 14001
- Increases light reflectivity
- UV stable
- Advanced weathering protection
- Inherently incombustible
- Fire classification: A2s1 d0
- Natureplus certified

[KEIM Soldalit® Fixativ](#) is silicate based primer for highly absorbent substrates.
